What do you particularly like about this course?

I like how we learned about different segments within policies from frameworks to ~~that~~ actors to theories.  
I also liked how ~~a lot of~~ all of us, as a class were learning from each other by sharing our point of views.

What do you dislike about this course?

~~But~~ In terms of content, I didn't dislike anything. But the course can be ~~be~~ spread out to a wider timeline so that its shorter no. of hours/day.

What are your suggestions for improving this course?

What do you particularly like about this course?

I liked the structure a lot: presentations, discussion, and especially the roleplay. The theoretics + tools (trilemma) were easy to understand and apply relevance. I also liked the end project, I felt it practical.

What do you dislike about this course?

I wished for more preparatory information prior to the block meeting. This being more organized resources and readings for the presentation topics. For the triangle trilemma particularly, a universal/official reference or mention in the introductory course could have been helpful. I felt a little lost in prepping my presentation but the guidelines were clear.

What are your suggestions for improving this course?

More organized online resources (similar to what I mentioned above).

## What do you particularly like about this course?

- The critical discussions we had in the class, the questions asked by the Prof. the followups, the presentations etc.
- I also liked the overall topics covered.

## What do you dislike about this course?

- We only touched so much of the trilemma of the Global North, we talked abt biases from the chat gpt but we covered so less on china, on emerging techs like semiconductors Taiwan. It's impossible to cover them all but it would have been nice to have country specific cases tied to topics like (Nuclear, wind solar etc) where south or the North?

## What are your suggestions for improving this course?

- Arrangement of PPT was a bit chaotic in the 1<sup>st</sup> meeting. A google form of 3 preferences topics could save time and also not ~~the~~ clashing student PPT choice, some one wanted to choose the Africa, Brazil choice but because the theory spots were not filled that had to be let go.
- Prof. is so much knowledgeable I would also liked to hear his PPT

The discussion in class were very engaging. I appreciated ~~the~~ how the Prop scout discussions and the critical assessment requested for each topic.

### What do you dislike about this course?

I personally would go with less presentation, since I appreciate more the "Lecture" format. That's because I feel I would ~~learn~~ learn more on the topic.

### What are your suggestions for improving this course?

I would change the first session (online), ~~also~~ especially for what regards the expectations and wishes of others. I would ~~st~~ shorten it.

What do you particularly like about this course?

About the punctuality & arrangements, which I think are especially important as the course context, I was quite satisfied. This made it easier to grasp many points from a bloc course as it is.

What do you dislike about this course?

There was nothing unpleasant & unpromising that has appeared during the bloc course.

What are your suggestions for improving this course?

Probably, to have every topic covered, the arrangement of presentations would be good, group presentations could work in this case. So even if one person drops, others can still present. Thank you!
